General Comment

As I ease into retirement I need all tactics and advantages I can muster to continue to increase my income stream. In the last five years I have successfully integrated options trading into my IRA and 401K. The amendment you are considering will greatly reduce my income. Over time I am positive it will force me to use my principle within my 401k and IRA. AS my principle decreases my income will also decrease. Please do not do this. I have no desire to go to the government later in life and ask for assistance when I can continue to increase my income now, contribute to the tax base and be a productive supporting member of society well into my retirement. Please do not add this admendment, the current system is working fine.

Thank you
Craig Ryder
