General Comment

I understand EBSA rules would restrict access to the use of options trading in Retirement accounts, such as IRAs and the like. This is patently unfair. Options, such as calls and puts, when used properly, LIMIT risk in retirement accounts. Please take the time to inform yourself before drastically reducing the ability of the population to properly SAVE and PROTECT their retirement account.

Please refrain from becoming a NANNY STATE where freedom is sacrificed in the name of "security". This is a false security in that knowledgeable people, who have taken the time to educate themselves to the tools available to them, are permanently damaged and their current and future is irreparably damaged.

Please cease supporting this bad ruling immediately.

Thank you for your consideration.
