General Comment

Please do not restrict my ability to use options trading to increase my IRA retirement account(s). Options, used properly, can grow one's account and also protect it. I have utilized much training through my brokers as well as through subscriptions to financial newsletters. Their expert advise has made options training a safe and effective way to realize the benefits of investing in the market.

I don't need my government to act as a "Big Brother" to protect me from my own investment decisions. I am intelligent enough to handle the inherent risks of life, including those in the investment world. What I need from my government is not more regulation, but more liberty. Please do not put this regulation on my freedom in place.
