General Comment

I disagree with the governmental attempt to deny me, and many others, the opportunity to use options from my retirement account. I know that there are some idiots who use options wrongly (aren't there always idiots?), but used correctly, options actually lower risk and can help pad a retirement account with decent income...income we used to get from interest bearing accounts. Well, who screwed that up? Oh, yes, it was the very same government who gave us QE1-3, printed insane amounts of money, destroyed the idea of earned interest, who now wants to intervene to protect us from ourselves. NO THANKS! A better question is, Who is going to protect us from you "do gooders?" Please, stay the hell out of this.
