General Comment

Please do not restrict the trading of options in IRA accounts. I use options to protect existing positions and reduce position break-even prices. I also use options to generate monthly IRA income. Restricting this ability will severely inhibit my ability to generate the type of returns needed for me to hit my "number" for retirement. It's a terrible proposal and like, taxes on gas hurt the poor and middle class much more than the wealthy, this proposal will hurt smaller investors seeking to maximize their retirement savings.
