Dear Sir or Madam;

I am writing you regarding the above legislation because I am an owner of both IRA and 401k accounts. The current bill restricts the trading of options in IRA accounts. I strongly object to this restriction. By being able to trade options I create income for me and my family and I also reduce risk by (essentially) buying investment insurance through the buying of puts or selling calls.

It has taken time for me to learn the proper option trading strategies but it has allowed me to grow my retirement account, which in the end the government will get a portion of through the payment of taxes.

Thank you for your time.

Sincerely,

Thomas Deater
