To the DOL,

Please do not limit my most powerful and least risky investment tool in my retirement account, by eliminating the use of options in my IRA accounts.

I use options in the best use possible, as a risk reducing tool when volatility is high and market fluctuations are dangerous to the principal of my retirement account.

When is government going to stop limiting my available choices? I have seen this too much, and I am struggling to achieve my right to "life, liberty, and the pursuit of happiness" when things such as this are thrust upon with little regard for my personal choice of investment vehicles. I am a successful user of investment tools that are available in the options market.
