God evening! I am writing to voice my opposition to proposed rule changes that would eliminate my ability to trade listed options with in my IRA! It appears the government only wants the rich business owners the opportunity to have access to options. I have traded options for years with my IRA and can attest to their ease of use and safety. Options can actually be used in a way to protect nest eggs! It's not all about risky trading. Please do not make this rule happen as it would have an extreme effect on my future retirement!
