## Notice of Critical Status For Alaska Ironworkers Pension Plan

The purpose of this notice is to inform you that on September 26, 2014 the plan actuary certified to the U.S. Department of the Treasury, and also to the plan sponsor, the Board of Trustees, that the Alaska Ironworkers Pension Plan (the "Plan") is in critical status for the plan year beginning July 1, 2014. Federal law requires that you receive this notice.

A similar notice was provided at this time last year, with notification of the Plan's critical status in 2013. The Plan was amended with a Rehabilitation Plan in 2010 to reduce certain benefits.

### Critical Status

The Plan is considered to be in critical status because it has funding or liquidity problems, or both. More specifically, the actuary has determined that the funded percentage of the Plan is 65% or less, and over the next four plan years, the Plan is projected to have an accumulated funding deficiency. There is a projected funding deficiency for the plan year beginning July 1, 2015. This means that contributions coming into the Plan are not expected to be sufficient to meet minimum contribution requirements as provided by the federal government.

The projected funding deficiency is the direct result of the investment losses experienced by the Plan in 2008 and early 2009. These investment losses have resulted in plan assets falling significantly below plan liabilities. The Trustees of the Plan remain committed to providing the best and most secure benefits possible. The Fund's investment portfolio remains well diversified and is positioned to maximize the likelihood of recovery.

### Rehabilitation Plan and the Reduction of Benefits

Federal law requires pension plans in critical status to adopt a Rehabilitation Plan aimed at restoring the financial health of the Plan. The law permits pension plans to reduce, or even eliminate, benefits called "adjustable benefits" as part of a Rehabilitation Plan.

On September 10, 2010, you were notified that the Plan reduced or eliminated adjustable benefits. The reduction of adjustable benefits does not reduce the level of a participant's basic benefit payable at normal retirement. In addition, the reductions may only apply to participants and beneficiaries whose benefit commencement date is on or after November 1, 2010.

**Benefits already in pay status as of October 31, 2010 will not be affected.** Also, the Plan is not permitted to pay lump sum benefits (or any other payment in excess of the monthly amount paid under a single life annuity) while it is in critical status.

#### **Adjustable Benefits**

All adjustable benefits have been eliminated from the Plan.

#### **Additional Rehabilitation Plan Contributions**

The Bargaining Parties have incorporated the Rehabilitation Plan into the collective bargaining agreement and employers are making additional contributions as defined by the Rehabilitation Plan.
