

Notice of Critical Status for the 2021 Plan Year for the Local 1245 Labor-Management Pension Plan

This notice (the "Notice") is to inform you that on March 31, 2021 the plan actuary certified to the U.S. Department of the Treasury, and also to the Board of Trustees (the "Trustees") of the Local 1245 Labor-Management Pension Plan ("Plan"), that the Plan continues to be in critical status for the plan year beginning January 1, 2021. Federal law requires that you receive this Notice.

Critical Status

A plan continues to be in critical status because it has funding or liquidity problems, or both. More specifically, the Plan has been certified to be in critical status in the 2021 plan year because it was in critical status in the 2020 plan year and the Plan has an accumulated funding deficiency for the current plan year beginning January 1, 2021.

Rehabilitation Plan

Federal law requires pension plans in critical status to adopt a "rehabilitation plan" aimed at restoring the financial health of the plan. This is the 13th year the Plan has been certified by the Plan's actuary to be in critical status. The law permits pension plans to reduce, or even eliminate, benefits called "adjustable benefits" as part of a rehabilitation plan. The Trustees adopted a Rehabilitation Plan on October 26, 2009, which was updated in 2012 and in 2017. The Rehabilitation Plan includes one schedule which does not impose any benefit reductions and the default schedule, which, by law, reduces adjustable benefits. Both of the schedules require additional pension contribution rate increases. You were notified previously that the default schedule reduces or eliminates adjustable benefits and that, as of January 1, 2009, the Plan is not permitted to pay lump sum benefits (or any other payment in excess of the monthly amount paid under a single life annuity) while it is in critical status. If the Trustees determine that further benefit reductions are necessary, you will receive a separate notice in the future identifying and explaining the effect of those reductions. Any reduction of adjustable benefits (other than a repeal of a recent benefit increase, as described below) will not reduce the level of a participant's basic benefit payable at normal retirement. In addition, the reductions may only apply to participants and beneficiaries whose benefit commencement date is on or after April 30, 2009. Each year the Trustees will review the progress of the Plan's funding status to determine whether the Plan remains in critical status. If necessary, the Trustees will modify the Rehabilitation Plan to reflect any changed circumstances.

Adjustable Benefits

The Plan offers the following adjustable benefits which may be reduced or eliminated as part of the Rehabilitation Plan the Trustees may adopt for the Plan:

- Disability benefits (if not yet in pay status);
- Early retirement benefits or retirement-type subsidies;
- Benefit payment options other than a qualified joint-and survivor annuity (QJSA);
- Recent benefit increases (i.e., occurring in the past 5 years before the initial critical year).

Employer Surcharge

The law requires that all contributing employers pay a surcharge to the Plan to help correct the Plan's financial situation. The amount of the surcharge is equal to a percentage of the amount an employer is otherwise required to contribute to the Plan under the applicable collective bargaining agreement. With some exceptions, a 5% surcharge was applicable in the initial critical year and a 10% surcharge was applicable for each succeeding plan year thereafter in which the Plan is in critical status and for which the union and a contributing employer have not yet adopted one of the schedules under the Rehabilitation Plan.
