**Notice of Seriously Endangered Status  
for the  
Asbestos Workers Local 42 Pension Fund**

---

This is to inform you that on March 29, 2013 the plan actuary certified to the U.S. Department of the Treasury, and also to the plan sponsor, that the plan is in seriously endangered status for the plan year beginning January 1, 2013. Federal law requires that you receive this notice.

**Seriously Endangered Status**

The plan is considered to be in seriously endangered status because the plan's actuary has determined that the plan's funded percentage is 66.2% which is less than 80% and the plan has a projected funding deficiency for the 2018 plan year (the 6<sup>th</sup> year of the projection).

**Funding Improvement Plan**

Federal law requires pension plans in endangered status to adopt a funding improvement plan aimed at restoring the financial health of the plan. This is the fourth year the plan has been in endangered status but the first year that the plan has been in seriously endangered status. On November 19, 2010, the Trustees formally adopted a Funding Improvement Plan. On March 22, 2013, the Trustees adopted updates to the Funding Improvement Plan to improve the funded percentage to over 75.5% by December 31, 2025, the end of the 15-year funding improvement period.
