SUPPLEMENTARY INFORMATION:
Notice is hereby given of the pendency before the Department of Labor (the Department) of an application for a class exemption from the restrictions of sections 406(a)(1) and (4) of the Employee Retirement Income Security Act of 1974 (the Act). The proposed class exemption, if granted, would exempt from the prohibited transaction provisions of section 406(a)(1) and (4) of the Act:

1. The purchase of personal property by a collectively bargained multiple employer employer signatories benefit plan maintained for the purpose of providing apprenticeship or other training programs (hereinafter referred to as an apprenticeship plan) from an employer who contributes to such plan (hereinafter referred to as a contributing employer) or a wholly-owned subsidiary of such an employer; and (2) the leasing of real property (excluding office space) or personal property (excluding furniture and equipment) from a contributing employer or a wholly-owned subsidiary of such an employer.

The International Union of Operating Engineers (IUOE), on behalf of 48 local affiiliated apprenticeship and/or training plans, and the Labor Retraining and Retraining Trust Fund for Northern California have filed applications for class exemptions based on representations which are summarized below. In addition, several applications which are pending for individual exemptions contain common representations with regard to the transactions described in the proposed class exemption. If the proposed class exemption is granted, all transactions reflected in the class exemption applications which are similar to transactions described in the proposed class exemption will be exempt from the prohibitions of sections 406(a)(1) and (4) of the Act if they satisfy the terms and conditions of the proposed class exemption. Interested persons are referred to the applications for class exemption on file with the Department for complete representations of the applicants. The applications were filed pursuant to section 408(a) of the Act and in accordance with the procedures set forth in ERISA Procedures 75-1, (40 FR 18471, April 28, 1975).

DISCUSSION

The applicants represent that apprenticeship and training programs maintained by apprenticeship and other training plans are essential elements in providing trained workers in the industries in which they operate. The proper functioning of these plans requires that, from time-to-time, they be provided with goods and services which are necessary for the operation of the plans. All such employers are signatories to collective bargaining agreements with the sponsoring unions.

An employer who makes contributions to a plan is a party in interest with respect to such plan by reason of section 3(14) of the Act. As a result, the sale or lease of property between a plan and such an employer is a prohibited transaction under section 406(a) of the Act. Accordingly, without the relief which would be provided by the proposed class exemption, many apprenticeship plans would be forced to obtain the necessary goods and rentals from non-contributing, non-union employers to the exclusion of union employers who provide the contributions. Several apprenticeship plans which were created as a result of collective bargaining to discriminate against union employers. Such a result would be completely contrary to the philosophy of collectively bargained apprenticeship plans.

The proposed class exemption is available only for multiple employer apprenticeship plans. For purposes of this exemption, multiple employer welfare benefit plan is a welfare plan which is a multiemployer plan within the meaning of section 3(37) of the Act or a welfare plan which meets the requirements of at least subsections 3(37)(A)(1), (A)(ii), and (A)(iv) of the Act.

The proposed class exemption is limited to transactions between apprenticeship plans and contributing employers or wholly-owned subsidiaries of such employers where the contributions or their affiliates are fiduciaries of the plan at the time of the transaction and have not been fiduciaries of the plan for a period extending through two years prior to such transaction. By the exclusion of certain parties in interest in this manner, the exemption is limited to situations in which there is less of a possibility that the party in interest can influence the plan’s actions to the plan’s detriment. Finally, the proposed class exemption would require that the exempted transaction be at least as favorable to the plan as an arm’s-length transaction with an unrelated party would be and that the transaction be appropriate and helpful in carrying out the purposes for which the plan is established or maintained.

The purchasing of goods and the leasing of equipment or other property frequently is accomplished after the solicitation of competitive bids based upon specifications published by the employer. The Department could consider imposing such a competitive bidding procedure as an additional condition for exemption. However, because objective standards for the imposition of such a requirement would be difficult to draft and admini
In their applications, the class applicants requested an exemption from the prohibitions of section 406(a) (1) (A) through (D) of the Act for the provision of services and the lease of property between a contributing employer and an apprenticeship plan. The proposed exemption would not provide relief for the provision of services, including construction or repair services, to an apprenticeship plan by a contributing employer or the leasing of office space by an apprenticeship plan from a contributing employer because these transactions are already covered by the statutory exemption under section 406(b) (2) of the Act and the final regulations issued thereunder (29 CFR 408b–2, 42 FR 32389, June 24, 1977). Under the exemption provided by section 406(b) (2), a party in interest (e.g., a contributing employer) may provide services (e.g., the construction or repair of a training facility) or office space to a plan (including an apprenticeship plan) if certain conditions are met. Accordingly, the class applicants are referred to section 406(b) (2) and the regulations issued thereunder for relief for such transactions.

The proposed exemption, if granted, would be effective retroactively to January 1, 1976.

**GENERAL INFORMATION**

The attention of interested persons is directed to the following:

**1. The fact that a transaction is the subject of an exemption granted under section 406(a) of the Act does not relieve a fiduciary or other party in interest with respect to a plan to which the exemption is applicable from the provisions of the following other provisions of the Act. These provisions include any prohibited transaction provisions to which the exemption does not apply as the general fiduciary responsibility provisions of section 404 of the Act which, among other things, require a fiduciary to discharge his duties respecting the plan solely in the interest of the plan’s participants and beneficiaries and in a prudent fashion in accordance with section 404(a) (1) (B) of the Act.**

Later on a class basis, because competitive bidding would not be appropriate for all plans in all situations and, more importantly, because a fiduciary with respect to a plan must discharge his duties with respect to such plan solely in the interest of its participants and beneficiaries and in a prudent manner pursuant to section 404(a) (1) of the Act, this requirement was not considered necessary or appropriate in this context. Rather, the proposal permits plan administrators to determine, consistent with their duties under the Act, when and how to solicit bids or otherwise effect the transactions covered by this class exemption.

**PROPOSED EXEMPTION**

Based on the applications referred to and summarized above, the Department has under consideration the granting of the following exemption from the provisions of section 406(a) of the Act.

In accordance with the procedures set forth in ERISA Procedure 75–1 (40 FR 18471, April 26, 1975); Effective January 1, 1976, section 406(a) (1) (A) through (D) of the Act do not apply to the transactions described in section I of this exemption, provided that the conditions set forth in section II of this exemption are met.

(b) The apprenticeship plan which enters into any of the transactions described in section I above maintains or causes to be maintained for a period of six years from the termination of any such transaction such records as are necessary to enable the persons described in paragraph (c) of this section to determine whether the conditions of this exemption have been met, except that:

(1) This paragraph (b) paragraph (c) below will not apply to transactions entered into prior to the date of grant of the exemption, and

(2) A prohibited transaction will not be deemed to have occurred, due to circumstances beyond the control of the plan or its sponsors, such as the loss or destruction of the records referred to in paragraph (b) of this section.

(c) Notwithstanding anything to the contrary in subsections (a) and (b) of section 504 of the Act, the records referred to in paragraph (b) of this section are unconditionally available at their customary location for examination during normal business hours by (1) the Department, (2) employees or representatives of a person whose behalf contributions are made to the apprenticeship plan involved in the transaction, (3) a contributing employer involved in the transaction, (4) the employee organization as of whose members contributions made on their behalf to the apprenticeship plan involved in the transaction, and (5) any duly authorized employee or representatives or a person described in (1) through (4) of this paragraph.
