Subject: Comment in support of RIN 1210-AB30

April 24, 2010

I am writing to support the interim final rule under the Paul Wellstone and Pete Domenici Mental Health Parity and Addiction Equity Act of 2008 (RIN 1210-AB30).

I support the strong rule that would forbid insurance companies from charging higher copayments, deductibles, and other out-of-pocket expenses for mental health treatment than they would for other physical health care. Thank you for ensuring that mental health care and physical health care coverage are included in a single deductible.

Insurance, banking and the Fed and Wall Street all cannot be trusted to police themselves. These institutions view Americans as suckers to be used, raped, and taken for every penny.

Health coverage should include the whole physical being, from head to toe. If the stupid insurance companies can allow men to get Viagra because their reproductive organ isn't functioning properly, then MOST CERTAINLY mental health coverage AND women's reproductive issues MUST be covered. Let's take away men's "plumbing" issues off the coverage list and see how fast the important stuff gets approved for women and other health issues.

Sincerely,

Cheryl Liniman
