Document: [IRS-2009-0008-0102](#)

Comment on FR Doc # N/A

Submitter Information

Name: Carol Jeanette Counts

Address:

Mokena, IL,

Organization: Neurotheray Plus

General Comment

Neurotherapy (a form of biofeedback) has been available since the early 1970's. While neurotherapy is not a "miracle worker" it has been shown to greatly improve a number of conditions with a neurological base. Please read the attached paper and consider including neurotherapy as a valuable and needed addition to our treatment protocol.

Thank you,

Carol Counts RN
