Subject: I support the DOL retirement advice rule [RIN 1210-AB32]

I appreciate and support the Dept. of Labor in its "fiduciary interest" rule making and hope this letter helps convince you that Americans care about their retirement savings. Just like the self-interested advice they give, retirement advisers are fighting the rule to protect the money they make off investments that earn them more money, even if they aren't as good for my bottom line.
