## General Comment

I have worked and saved long and hard to prepare for my retirement. My wife and I have done a great job managing and investing. Now I am in my late 50's and now the Federal government wants to regulate my savings??? What the hell is that?

Please stay out of my retirement and leave it alone. If an every day guy like me can figure it out any one else can to. Government does not have to protect people from everything.

I will control my own thank you. If you guys start regulating these we the people will find a way to move our retirements elsewhere.

Tired of Government Intervention,  
Scott Felsted
