## General Comment

I am capable of handling my own 401K. I made the money, I will invest and spend it how I want to.

No government has the right to tell me how to spend the money I make. The government already taxes way too much and then doesn't even know how to keep a balanced budget.

I have a budget, and I do not have a deficit. I will decide how I spend my 401K when I retire. Due to the misuse of the government spending; it is likely that I won't have any social security to fall back on. My 401K will be all I have.
