## General Comment

I am perfectly capable of managing my retirement plan. Everything the US government touches gets messed up so keep your paws out of my personal retirement business.

While I'm at it, do us a favor and just quit legislating altogether until the country gets a chance to recover from your mistakes. The government's intrusion into the economy and peoples' lives has been going on since FDR and your brilliant ideas have ruined the outlook for generations to come. All you really care about is power and your cronies like George Soros anymore. Leave us alone! Concentrate on reversing or removing some of the nonsense you have already dumped on us like Ocommiecare.
