General Comment

DO NOT TOUCH MY 401K! It is mine to do with how I wish. I do not need some government entity/person dictating to me what they view is best for me. THAT is my choice on how to make those decisions!

Give advice to me, yes. Layout out guidelines that can help in the decision process, yes. Anything outside of this is not acceptable.

Only those that have been ill served and ill educated by our educational system would think that having the government play a role in determining how best to use our retirement plans is a good idea.

Stay away from mine! It is me (and only me) that has the right to make those decisions.
