General Comment

I have worked hard all my life put money in my 401k plan to prepare for retirement, I don't want the government involved in my personal finances. I have put money in into Social Security since I was 13 years old, to say that social security doesn't have money to paid back our money, because it was spend on other government projects is bad. Leave our retirement & social security alone, we earned it, it is not a gift !!
