General Comment

IRA's and 401K's are for individuals to put their own money away for retirement. I have been on top of this issue since I was

32 years old, I am now 64 years old and I believe I have made the right choices for my retirement when the time comes.

I do not need my government managing my financial affairs. They have been good enough to sock money away for me in my

social security account by using the social security tax. That is good enough for me. My financial affairs are my own business.

I know I will be taxed when I start to withdraw funds from those accounts. That is OK by me. In the meantime, please keep

the governments hands out of my 401K and IRA accounts.

Respectfully yours,
