General Comment

To Whom It May Concern

I understand plans are being made that could reduce my influence on how I plan to use my retirement funds --- and that this plan could increase the influence the government or one or more of its agencies could have on the use of my (and other private citizens) personal retirement funds.

I have had fifty years to accumulate my personal retirement funds and I do NOT need or want any one, particularly the government or a governmental agency, to become involved in my retirement management. I can manage for myself, thank you!

I do not support any legislation or activity by government, its agencies, either federal, national or local, to interfere with the use of my personal retirement funds. I encourage any legislator or agency head not to help establish any law, regulation or policy which could lead to this in any form.

I do remind all that funds such as Social Security funds collected from private citizens, were to be set aside for the eventual use of those citizens. The misuse of SS funds by different departments of the government or agencies thereof were not authorized and should be discontinued immediately.

H. Chris Yurk
