I support these proposed changes. A new commercial sponsored by SECURE FAMILY is airing on TV. It states that a new rule proposed by DOL will harm savers/investors by reducing the information they can receive from their Financial Planner. THIS IS A LIE. Secure Family is paid for by Americans to Protect Family Security, which is a partnership of America's life insurance companies, agents, and financial advisors. The new rule would protect us from CROOKED financial advisors by preventing, misleading statements, conflict of interest, putting their interests before ours, overcharging, etc. Do not be fooled by this Wall Street propaganda.
