I am very concerned about a proposal to ban options in IRAs. If it was not for options in my IRA I would not have been able to retire. They provided a safe way for me to be exposed to equities. During the crash of 2007 they limited my stock losses to around 2%, and then generated large capital gains when the market recovered. I was so impressed that I filed a patent disclosure on the technique: US Patent Office publ. No. US-2009-0177596-A1. { <http://www.google.com/patents/US20090177596> }

I oppose any option restrictions in IRAs. Forrest Anderson
