This is what the Olson Group in Morgan Stanley did to us:

put over 80% of our funds into high cost low yield annuities.  
big commission for them.

We trusted them 100% & said we know you'll do what's best for us, make our money work hard for us.

They took advantage of 2 old seniors & locked us in for 9 years.

When we finally found out what they did ... we fired those bums but still stuck in annuities.  
Thanks for listening
