**Subject:** Comments regarding RIN 1210-AB33

I will keep this short. I am strongly opposed to having the Government annuitize any portion of my 401K / IRA's. The Government has shown itself too many times to be irresponsible with finances. I would rather trust myself.

This is just another resource grab. Show me the money making investments from Social Security. Is this another means of bailout for AIG? 80% owned by Gov and the largest insurer of annuities? Hmm

Travis
