Let's be very clear about this subject.

IT'S MY MONEY. It's not the governments. The government didn't work 60+ hour weeks. The government didn't put one hour into my wages. People did. I'm sure the government is ecstatic to take all my money now and give me installments on my money. Of course the government would, Obama can't even pay the damn bills without borrowing more money in one year than Bush borrowed for an entire Presidency.

GET YOUR HANDS OFF MY MONEY
