I strongly oppose having the Federal Government meddle any further in retirement 401k/IRA plans.

First, there is no provision in the Constitution for the Federal Government to insinuate itself into financial planning for United States Citizens.

Second, even if there were, we wouldn't need this action if the OTHER so called retirement plan we're (mostly) all forced to participate in (Social Security) were working.

Third, if I wanted someone to give me financial advice, I'd look to someone who had demonstrated an ability to live within their means. I wouldn't be taking advice from the same people who most recently gave us TARP and the AIG bailout.

No thanks. When the government says they're worried about my retirement, it makes me nervous. They're worried about it all right, they're worried about how to get their hands on it!
