Subject: Comment to RIN1210-AB33-Request for Comment to a government annuity if we give you our IRA and 401K money

Dear Sir,

Here is my comment to your Request for comment to the government taking our IRA and 401K money in promise for a future annuity under IRS Document 2010-02028

I do not support this initiative. I have worked long and hard for the money I have in my IRA. The US Government has a history of mismanaging programs like Medicare and Social Security. I do not believe this initiative will receive any better management. This appears to be another inept grab for money to support reckless spending that seems to have no end, no control, and no vision for bringing spending under control.

Simply put: Keep you hands off my money that put in my IRA. I planned and saved to ensure I have enough money to enjoy my retirement the way I want to not the way the Government believes I should. As a group you (the Government) are poor money managers. I know my needs and I know what I want to do with my money. I don't need your help and I don't support you taking my IRA funds for your purposes.

Respectfully submitted by a taxpayer who is appalled at the idea the Government thinks it can manage my retirement better than I can.
