I have the following comments about the Request for Information Regarding Lifetime Income Options for Participants and Beneficiaries in Retirement Plans.

1. I DO NOT trust the government to manage my money as well as I would manage it myself. Nobody is a better steward of my money than me. I have a vested interest to make sure I have sufficient funds to live the lifestyle I wish to live once I have retired. I DO NOT want the government establishing what my lifestyle should be.

2. The Federal Government has proven time after time that they are the WORST money managers on the planet. If I managed my budget the way the federal government manages theirs I would be in prison.

3. I don't trust the government to use my money for what it is supposed to be used for. Look at the Social Security System. How much of that money has been squandered on ridiculous programs.

4. I have no doubt I can invest this money and can do much better than the federal government.

5. It is not the responsibility of the government to insure that I or anyone else has a guaranteed income. I want to be responsible for myself. I don't want the government taking care of me, I want to take care of myself.

6. LEAVE MY MONEY ALONE, YOU ALREADY TAKE TOO MUCH FROM ME. I PAID \$62,000 IN TAXES LAST YEAR, ISN'T THIS ENOUGH!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!
