To whom it may concern:

I am completely opposed to any government interference, takeover, or management of personal retirement accounts like 401(k)s.

The government has shown that it is incapable of managing its own finances (i.e., taxpayers' money). Any government interference with 401(k)s would be another way to steal the hard-earned money of responsible Americans, so that politicians could spend it on more unsuccessful and wasteful programs. That would be morally grotesque -- and grind the economy to a halt.

Please respect our property rights and keep the politicians' hands off our retirement savings.

Sincerely,

Kim Catacutan
