I would like to voice my opinion about the Federal Government trying to put laws in place to take over individual 401ks and IRAs. I work hard to put money into my 401K and the Federal Govt. has no business trying take it from ( The govt. refers to it as "manage" it for me) me so they can use it to bail out the huge amount of debt they created. The US Govt. cannot even manage their own finances, so why in the world would they think they could manage my or any one else's. Taking over individual 401ks and IRAs would be a crime to the American people.

Thanks,
