Subject: Department of Labor: Public Comment for RIN-1210-AB30

Please support the proposed amendments to the disability ERISA laws: RIN-1210-AB30.

I have been an ME/CFS patient for 16 years, and I know the physical and emotional agony of coping with severe disability. To have to struggle, in addition, with financial losses along with the indifference of those making decisions about long term disability insurance actually multiplies the tragedy.

The amendments will greatly assist the disabled in obtaining their deserved disability payments as promised by their LTD companies.

Sincerely yours,
