Subject: Department of Labor: Public Comment for RIN-1210-AB30

Dear Department of Labor,

As a long time chronically ill person, I strongly support the proposed amendments to the disability ERISA laws: RIN-1210-AB30. My experiences in my past, was a difficult, exhausting process with contrary and unhelpful representatives. Since as workers, we pay into our "benefit", ill and disabled among us should not be denied benefits for inadequate reasons. The amendments will greatly assist the disabled in obtaining their deserved disability benefits.

Sincerely,
