

*Re: RIN 1210-AB39*

*I am writing to comment on the Proposed Regulations issued by the Department of Labor, Employee Benefits Security Administration on November 18, 2015 (“Proposed Regulations”).*

*Creating a designation for disabled patients with ME/CFS (lately also referred to as SEID) puts this disabling illness in a similar category to other similar illnesses like AIDS, MS, and mentally impaired individuals.*

*To watch our 22 year old son go from attending college and working as a soccer teacher to now being unable to drive, run, read well or do much for himself has put a great strain on him and our family in general.*

*He has been tested by a psychologist and has been recommended for disability services if he is chosen. There should be no "if" involved. Disabled is disabled.*

*Thank you for your provision of this comment section,*

*Anxious parent*
