Subject: You suck for supporting birth control access for all women
Date: Wednesday, August 03, 2011 11:36:29 PM

Dear Kathleen Sebelius, Secretary of Health & Human Services,

Pregnancy is not a disease.

Having sex is a choice,

Having a baby is a blessing.

Birth control is a matter of taking control of your own
life and making decisions as to whether you should have
sex now or not.

Birth control pills do not need to be given away and poisoning our your women and I do not appreciate,
as a tax payer, having to pay for this health disaster.

And shame on you for claiming to be a Catholic.

Sincerely,

Carol Kling
