Dear Kathleen Sebelius, Secretary of Health & Human Services,

As a married college student, I struggle daily to make ends meet. It is very nice to feel like the issues I encounter matter in the grand scheme of things. Birth Control is quite expensive to those of us in the low income bracket and many insurance companies do not feel obligated to cover these expenses. By supporting birth control access you have my up-most respect and admiration.

Thank you for supporting us!

Sincerely,

A. Priesmeyer
