Subject: Employer approval for contraception?
Date: Wednesday, August 10, 2011 6:17:33 PM

It is outrageous that any employer have veto power over a woman's choice to use/not use contraceptives. Let's remove the veil and stop pretending it's about religious rights, it's about corporate greed. Churches are about religious freedom NOT employers. They have no business in my, or any other womans, reproductive system, period.
