Subject: Contraception
Date: Wednesday, August 10, 2011 6:21:59 PM

Please cover contraception. 49% of pregnancies are unwanted. Too many unwed young mothers lack sex education and are having babies. Contraception prevents unwanted pregnancies. The country saves nearly \$4 in Medicare expenditures with prevention. In 2008 family planning clinics saved \$5.1 billion from unplanned pregnancies. No one wants abortions. Sex education and contraception prevent abortions. Support free birth control for all women.
