---

Please reject the "religious refusal" exemptions.

Forcing employees to live by their employers' religious, moral, or ethical medical choices denies women their basic rights. Make all women's reproductive choices their choices.

This is not a third world country .

This is not a religious state. Leave religion to the places of worship.

This is the United States of America.

Please accept the recommendations of the Institute of Medicine and reject any exemptions for "religious employers", religiously-run health providers, and any entities from removing a woman's control of her own body.

Let freedom ring!
