No employer has the right to dictate what I can and can't do in my private life! This is one of the huge problems of our health care system! I am only one of millions of people who are really sick of the Religious right imposing on our lives. This has to stop. They do not have the right to dictate anything, on any grounds. Religion is being used as a cloak to push their anti-woman agenda. Equality scares them, and god forbid if women make up their own minds about anything!
