Subject: Opposition to the proposed definition of a religious employer
Date: Friday, August 12, 2011 6:00:19 PM

To Whom It May Concern:

Please reconsider your proposed definition of a religious employer. The Catholic church has been providing quality healthcare to people of all ethnic backgrounds and socio-economic statuses. The United States should provide true conscience protection to all religious employers and not force them to go against their dearly held moral precepts. My husband has been a practicing physician for over 30 years and his patients tell me that they appreciate him for his compassion and his morals.

Thank you very much,

Teresa Israel
