Subject: Conscience Protection absent in new regulations regarding Contraceptive coverage.
Date: Thursday, August 18, 2011 3:46:50 AM

Hi, My name is Judy Haag, I am from MN and a nurse in Long Term Care. I am shocked at the disregard of conscience protection in the new regulations regarding Contraceptive coverage. I want the HHS, under the leadership of its secretary Kathleen Sebelius to receive the following message:

Pregnancy is NOT a disease to be prevented and contraception should not be a mandated "preventative health service". Respect for conscience is foundational to a just society. At a minimum a robust conscience protection should be granted, not only for all religious employers, but also for all employers, insurers, and policy issuers with moral, ethical, or religious objections.

I pray that everyone involved in this kind of decision making will be opened to "THE TRUTH" about the beginning of "HUMAN LIFE". With the clarity of Ultrasounds these days, how can we be so blind not to know we are killing our youngest USA citizens!!!!!! Judy Haag judy4life@meltel.net
