Subject: Support Health & Human Services birth control
Date: Friday, August 19, 2011 11:15:02 AM

Sirs:

I wholeheartedly support the Department of Health & Human Services initiative to make birth control available to those insured without co-pays.

I also feel this should be without expanded religious exemptions, which only delay and confuse those needing the service.

This has been recommended by the Institute of Medicine.

Sincerely,

Harriet Leonard
