To Whom It May Concern:

I am writing today to ask in the strongest way possible that you rescind the unjust and coercive mandate that all "contraceptives" and sterilization procedures be covered by private health insurance with no co-pay to patients. I strongly oppose the government forcing free insurance coverage on Americans especially for drugs and devices that I oppose because some of these can cause an abortion (such as ella and Plan B). Providing such services for free will create undue financial burden on other participants in the plan.

Please protect the conscience rights of insurers, providers and people like me who object to being forced by the federal government to offer or subsidize contraceptives and sterilization services, especially when some of these drugs can take the life of early unborn children. No Americans should be forced by the federal government to essentially subsidize services they object to. I again urge you in the strongest way possible to reverse course and remove contraceptives and sterilizations from the list of mandatory preventive services.

Sincerely,
Dawn Woody
Knoxville, TN 37922
