To Whom It May Concern:

I am writing today to ask in the strongest way possible that you rescind the unjust and coercive mandate that all "contraceptives" and sterilization procedures be covered by private health insurance with no co-pay to patients. If you do not reverse course I ask you to expand conscience protections for any organizations that provide individual and group insurance and have moral or religious objections. I strongly oppose the government forcing free insurance coverage on Americans especially for drugs and devices that I oppose because some of these can cause an abortion (such as ella and Plan B).

This policy clearly violates the Free Exercise of religion clause found in the First Amendment. Any policy which is unconstitutional should be blocked. It is because of policies like this that it becomes increasingly clear to me that we need to do away with the Federal Department HHS! How's that for backlash? This isn't a threat, it's a promise--I will do everything in my power to see the Departments of Education, HHS, HUD, the EPA and the Department of Energy, all of which exceed the authorizations outlined in Article 1 Section 8 of the Constitution, to be abolished by the next federal administration

Sincerely,

Thomas P. Milley,
