Subject: RIN 1210-AB44 - a note of concern
Date: Saturday, September 10, 2011 9:06:29 AM

To Whom It May Concern:

I urge you to rescind the requirement that all contraceptives be covered by private health insurance with no co-pay to patients.

If you do not rescind that mandate, I urge you to offer authentic conscience protections for any organizations or businesses that provide individual and group insurance and have moral or religious objections. I strongly oppose the government forcing insurance coverage on Americans, especially for drugs and devices that can cause an abortion. This legal mandate clearly violates the spirit of conscience laws which prohibit government discrimination against those who object to various health services on moral or religious grounds.

No Americans should be forced by the federal government to subsidize services they object to. Please remove contraceptives and sterilizations from the list of mandatory preventive services.

Sincerely,
Larry Versaw
Golden, CO 80401
