To Whom It May Concern:

I am writing today to ask in the strongest way possible that you KEEP the completely justified mandate that all "contraceptives" and sterilization procedures be covered by private health insurance with no co-pay to patients. Short of this, I ask you to expand conscience protections for any organizations that provide individual and group insurance and have moral or religious objections.

As a Disabled American Veteran and someone quite committed to my community and my country, I am tired of extremist groups like Family Research Council trying to usurp control of both my values and my government. In this case, I much prefer a mandate of providing birth control - which then becomes a choice of the consumer to use or not - over having more starving or otherwise abandoned children on the streets of the USA; or members of the working poor relegated forever to raising families in poverty because they had no equal access to birth control.

Respectfully yours,

Jill Patrick

Sincerely,
Jill Patrick
