To Whom It May Concern:

I am writing today to ask in the strongest way possible that you rescind the unjust and coercive mandate that all "contraceptives" and sterilization procedures be covered by private health insurance with no co-pay to patients. I am amazed that liberals, who have for years used the phrase "pro choice", deny choice to individuals and insurance companies when it concerns being made to fund coverage for "morning after pills", which in some cases lead to the death of a fertilized ovum. Some of us believe that life begins at conception, so for us this amounts to the government forcing us to fund an immoral procedure. Please consider those of us who have a different viewpoint than yours. Power corrupts, and it is on display in this case. Rise above that and do what is right.

Sincerely,
Willam Laurence
