Phone: 412-396-5259

Organization: Duquesne University

General Comment

I agree that contraception can be used in the cases of medical necessity (i.e.preventative care for bleeding disorders).

However, if anyone is allowed to have contraception covered for any reason, it becomes preventative in another sense, that of pregnancy. This does go against church teaching.

Please help protect the right of Catholic institutions to back their teaching with their health care packaging.

Respectfully submitted,

Dawn Culver
